Clarifications
Questions/Comments Answers

Only pounds of candles produced? No packaging? Is this referring to maximum capacity?
Pounds of candles produced; no packaging included. Maximum reasonable production capacity. Company should define presumptions in data, including defining the downtime, which may refer to seasonal, holiday or demand- or supply-driven

What is downtime referencing? Idled because of lack of sales or production problems?
I would not know what percentage we are of total US production.
If known approximately, please provide.

Pounds of candles? With or without packaging?
Is this net value after discounts or gross sales, no deductions?
Or does value refer to cost of goods sold?
Pounds of candles shipped, without packaging. If packaging is included, indicate the weight of packaging.
Net value.
