

The National Candle Association (NCA) is deeply saddened to learn of the tragic events that took place at the Mayfield Consumer Products factory in Kentucky. Our profound sympathies are with the entire Mayfield community, the families who have lost loved ones, and the employees who have lost friends and homes. Our thoughts and prayers are with those who are injured or still missing and will continue to be with them as they rebuild their community. Mayfield Consumer Products, known as MCP, has been an important contributor to the candle industry for decades.

NCA will be supporting employees and their families through the MCP Tornado Victim's Fund. If you wish to make a donation, please visit: <https://mayfieldemployment.com/>.
