Dear Partner,

September marks World Candle Month, a celebration established by National Candle Association (NCA) to bring to light the various ways candles enrich our daily lives. The annual event brings together candle lovers from around the world. World Candle Month is just one of the many ways NCA encourages industry collaboration to promote global candle sales and bring awareness to the benefits of candles.

This year’s World Candle Month theme is "Lighten the Mood". Below you will find ideas and tips to celebrate with us all month long.

In your social media posts, be sure to use #WorldCandleMonth. If your company is having any upcoming initiatives or promotions, please feel free to reach out.

World Candle Month is also contracted with National Today, the number one destination in the world for people looking for a reason to celebrate, and the brands/events that want to celebrate with them. Visit and share our National Today – World Candle Month Page for more information on the history of WCM and additional ways to celebrate.

Thank you,

Brad Root
President
National Candle Association

Matthew Mantione
Executive Director
National Candle Association
The National Candle Association (NCA), founded in 1974, is the major trade association representing U.S. candle manufacturers and their suppliers. The mission of the National Candle Association is to serve and represent its candle manufacturing members of the United States of America and their suppliers, and to promote safe products and a healthy environment for the industry. Headquartered in Washington, DC, NCA has more than 100 candle manufacturers and suppliers as members and is widely recognized as the leading technical authority on candle manufacturing, science, and safety.

The Latin American Candle Manufacturers Association – ALAFAVE – was created in 1999 as a non-profit association by a group of candle manufacturers and suppliers to the candle industry. The goals of ALAFAVE are: to promote the Latin American candle industry through the sponsorship of digital publications and of conferences where the exchange of technical, market and regulatory information among its members takes place; to promote the production of quality candles and the safe use of candles in the region; to strengthen the integration of the Latin American candle industry in today’s global economy.

The European Candle Manufacturers Association (ECMA) is the collective voice for the leading candle manufacturers and suppliers to the candle industry in Europe. Priorities are quality, research, standardization and compliance – and to offer safe and beautiful candles consumers can enjoy. ECMA was founded in 2021 when the former Association of European Candle Makers and European Candle Association joined forces.
World Candle Month is organized by the National Candle Association
